

***Euonymus fortunei* 'Kewensis'**

mass planted for landscape impact, or as a container specimen.

- *Lomandra confertifolia* ssp *rubiginosa* 'Frosty Top' – an extremely tough foliage plant exhibiting a more upright, bushy growth habit than other similar selections.

New Canna 'Tropical Bronze Scarlet' from Ball Australia combines rich dark bronze leaves that accentuate the bright scarlet flowers that sit above the foliage. Growing to 750mm high this line "makes a dramatic statement within large landscapes".

Bushland Flora-Bush Magik presented *Acacia* 'Emerald Curl' (PBR) – a small accent tree (to 3.0mH) with an upright habit and soft, lush fine curling foliage.

In the allied products category:

- Garden City Plastics offered new 6- and 10-cell Kwipot trays
- Heiniger released Supercharge Starter and Supercharge Boost soil enhancement and nutrient products

Fairy Magnolia®

- Go Natural presented a new 220 litre compost bin of recycled materials, a knockdown residual herbicide based on natural oils and plant essences, a Tree Care Kit, Plant Activator, and a unique potting mix made from recycled kerbside garden waste.
- Organic Crop protectants (OCP) revealed Backyard Buddies – a live insect-based product that offers an alternative to pesticides, Eco-fungicide with no withholding period and safe on beneficials, and Eco-neem insecticide effective against foliage-eating pests.
- Multicrop presented EcoAnt Insect Spray effective against ants, earwigs, slaters and leafhoppers, and EcoGrub 3 in 1 for Lawns and Gardens for the control of lawn grub, armyworm and African black beetle, while also acting as a fertiliser and wetting agent.

***Acacia cognata* Emerald Curl**

'Big Red' Calliope dark red
